

Safe, Secure Data

All information sent between your computer and Attendance on Demand servers is automatically encrypted.

- Highly secure hosting environment.
- Advanced firewall technology.
- Timely backups.
- Data safety and integrity that are hard to match with internal hosting.

Precise timekeeping

Attendance on Demand maintains precise time calculations using the nation's standard time and frequency reference for the U.S. government: the National Institute of Standards and Technology (NIST) master clock.

Secure employee information

The system was purposely designed so that enabling cookies — text strings sent to your browser — is not necessary. Attendance on Demand is built with advanced servers and data centers for immunity against prolonged power outages, flooding, fire, and other natural disasters.
